Agenda

- About Zone-H and defacements
- Statistics

2

What is Zone-h.org

- News, advisories and opinions, provided from recognized IT security news sites, trusted product vendors and pro-active members of zone-h international community
- Statistics of most recent digital attacks, surveys and detailed analyses, presented in our regular reports
- Worth-to-read articles, describing new developments in the IT security world
- Interviews with leading IT Security industry experts, accompanied by an opportunity to discuss different topics in specialized forums and IRC chatrooms
- Ongoing evaluations of current digital threats and short-time prognosis
- Case and motivation studies of digital incidents.
- Daily newsletters
- Free Security services: daily "early warning" bulletin + InfoSec pager

What is Zone-h.org

Disclaimer:

Zone-h neither: condones, promotes, and/or participates in attacks that are recorded within our database. It is however in a unique position that such attacks are freely reported to our organization.

Zone-h catalogues several useful pieces of information for each intrusion including the timestamp of the attack, software version of the webserver, the operating system, motivation of the attacker, and reported technical details of the intrusion methodology.

Defacement

Defacement is an attack against webpage, replacing the main (usually) page with attackers page.

Reasons:

Political (hacktivism) — Mohammed cartoosns, G8, war in Iran, conflict between Israel and Palestine, etc

Best defacer
