# Introduction

# OWASP

The Open Web Application Security Project

http://www.owasp.org

**OWASP is a worldwide free and open community focused on improving the security of application software.**

**Our mission is to make application security visible so that people and organizations can make informed decisions about application security risks.**

**Everyone is free to participate in OWASP and all of our materials are available under a free and open software license.**

**The OWASP Foundation is a 501c3 not-for-profit charitable organization that ensures the ongoing availability and support for our work.**
